

VOLUME LXXXX—THREE CENTS--SUNDAY FIVE CENTS

OAKLAND, CALIFORNIA, TUESDAY EVENING, JANUARY 7, 1919.

B

NO. 134

R SWEEPS BERLIN; BATTLE IN STREETS

HT LEADS REDS IN DECISIVE COUP

Chreschinsk, four miles from Bentschen, and have sent an ultimatum to the German commander in the latter place, demanding that he surrender. The demand has been refused, according to Tageblatt (Bentschen is near the boundary between the Provinces of Posen and Brandenburg and is about forty-three miles southwest of Posen).

**Take This—
And No Other!**

HUNDREDS of products are sold in the form of plain white tablets. In appearance alone they are indistinguishable.

When you buy Aspirin Tablets or Capsules you should be certain that the Bayer Cross appears on every package and on every tablet. It is placed there for your additional protection and is conclusive evidence that you are obtaining genuine Aspirin. Look for it.

The trade name "Aspirin" (Reg. U. S. Pat. Off.) is a guarantee that the monocrystalline salicylic acid is of the highest purity.

**Red Flag Barred
in Parades**

Red Flag Barred in Parades

The "Red Flag Ordinance" passed by Commissioner F. P. Jackson, which it unlawful to carry the Redshirts in any public parade or assembly in any public meeting in Oakland, was finally passed today by the city commissioners. Jackson stated that the ordinance was the result of many demonstrations as have been seen in Boston or New York.

"There is no room in Oakland for Bolshevism," said Jackson, "and we will record right now in the city record. The law makes it a misdemeanor, punishable by as much as 90 days in jail, to exhibit the red flag. It will not affect action flags flying on polling places, City Hall or City Hall reported.

Settlement Is Made in Keefe Will Case

Settlement Is Made in Keefe Will Case

The will contest of Mrs. Alice L. Keefe and William O. Keefe, daughter and son of Mrs. Catherine Keefe, was settled today by Judges J. Kinross and Lin S. Churchill. The estate, amounting to about \$11,000, was willed entirely to Mrs. Lucy McCormick and William V. Keefe, her children. By the terms of the settlement, which was agreed to by Mrs. Keefe, the estate will be received by the children and will be given them \$3400. Attorney W. L. Hynes represented the contestants.

State Moose Will Hold Big Meeting Here

A. VANDER NAILLE JR.

Occasion to Be Conferring of
Second Degree in Presence
of Order's Chiefs.

Oakland is to be the scene of a
two-day meeting of Loyal Order of
Moose, representing every lodge in
this State. The occasion will be the
conferring of the second degree of
the order on a large number of
members, and the date will be Feb-
ruary 8 and 9.

Oakland was selected after several
telegrams had been sent to supreme
officials in the East by A. Vander
Naille Jr. of this city, and Charles
A. A. Magee, supreme dictator of the
order, who topped here Sunday en
route to Chicago.

It is announced that Dean J. A.
Bondthaler, from Chicago, and J. J.
Arizer, of Kansas City, known as the
great Inkam of Moosedom, will
come specially to Oakland to direct
the ceremonies and will also have as
assistants many lodge officials from
all over the State.

MARY PICKFORD IS CONFINED TO HOME WITH FLU

Mary Pickford, the famous
moving picture star, who re-
turned to Los Angeles from
Oakland Sunday after greeting
her adopted regiment, the 143d
field artillery, is confined to
her home in the south today, a
victim of Spanish influenza.
Miss Pickford was taken sud-
denly ill yesterday while work-
ing in her Hollywood studio and
at once summoned a physician.
Today she is under the care of
a physician and two nurses.
While Miss Pickford's case
has been diagnosed as influenza,
she is regarded as not in a criti-
cal condition.

OAKLAND 'CITY THAT IS TO BE' ASSERTS PAPER

Oakland is called the "City That
Is to Be" in "It," a weekly paper in
Los Angeles, edited by Miles Over-
holt. Under the caption, "Yours
for a War Map," diverse municipal-
ties are characterized thus:
Los Angeles—The metropolis of
the Pacific Coast and the capital of
Idaho.
Portland—The City of Dreadful
Sights.
San Diego—Cinderella Waiting for
the Prince.
Salt Lake—The Largest City of
Its Size in the World.
Seattle—As Much Noise as Sound.
Tacoma—The City of Make-Believe.
Goldfield—Spelling uncertain; May
be Goldfield.

McAdoo to Start for West Tonight

WASHINGTON, Jan. 7.—Director
General of Railroads McAdoo will leave
Washington at 8 o'clock tonight for
Santa Barbara, Cal. He will not go as
a private citizen as he hoped, but will
be accompanied, in addition to his
family, by Oscar Price and J. M. Shafer,
two of his assistants at the adminis-
tration. Up to a late hour last night
Mr. McAdoo had received no word from
President Wilson in reply to the for-
mer's recommendation of a successor.
At the last hour, therefore, arrange-
ments were completed for starting the
journey to the Pacific coast in his cap-
acity as director-general.

You Are Wonderful

Says Mr. M. Robles in praise of FONG WAN,
CHINESE HERB SPECIALIST. The fol-
lowing testimonial is convincing:

"I have been suffering from a
chronic disease for many years. I
tried many different doctors and
treatments, but none of them helped
me. I was very weak and my health
was failing. I heard of Fong Wan,
the Chinese Herb Specialist, and I
decided to try him. I went to his
office and he examined me. He told
me that I had a chronic disease and
that I needed a special treatment.
He gave me a prescription for herbs
and I took them for a few days. I
felt much better and my health was
improving. I went back to him a
few days later and he told me that
I was getting well. I am now
strong and healthy and I am very
grateful to Fong Wan for what he
has done for me. I highly recom-
mend him to all who are suffering
from chronic diseases." (Signed)
"MIGUEL ROBLES,

MEMORIAL TO LOCAL HEROES NOW ASSURED

With the unanimous confirmation of several sub-committees appointed by Judge George Samuel, permanent chairman, since its meeting of three weeks ago, the memorial committee, which is to select a suitable monument to the memory of the Oakland boys who died in the service of their country, is now properly organized for definite action.

Judge Samuel, who presided at the meeting of the committee in council chamber in the city hall last night, announced that letters notifying members of their appointment on sub-committees had been mailed to them since the last meeting and that many letters of acceptance had been received.

According to Judge Samuel, steps probably will be taken in the near future, through the legal committee, to give the committee a proper legal status by incorporating under the laws of the State of California.

SUGGESTIONS MADE.
It was announced at the meeting that many suggestions as to what would be a desirable monument—love and affection that the citizens of Oakland have for the young men who gave their lives in the cause of liberty—had been received. All committees on that subject will have to be filled in writing with the sub-committee on the memorial. After these have been discussed by this committee persons submitting them will be permitted to go before that committee and present arguments in support of their suggestions.

When the committee has reached a decision as to what it would recommend in the way of a memorial, a report will be made to the memorial committee as a whole, which has the final decision on all questions.

Members of the memorial committee express the belief that such better progress can now be had, as the work has been segregated under several heads.

IDEAS FOR MEMORIAL.
No action was taken by the committee concerning suggestions filed in writing by different individuals and bodies. All of these were referred, without reading, to the committees in charge.

Rev. Alexander Allen outlined his ideas of a fitting memorial briefly as follows:
"The proposed memorial should appear primarily to the soldier and sailor. It should also be permanent in its character and make common to the citizenry of Oakland of today and tomorrow, must not only be a thing of beauty, but meet a community need—a memorial hall dedicated to Liberty and Human Rights."

"Such a hall would be a home for the American Red Cross and also for the Associated Charities and kindred bodies, which might be more happily named 'The European Public Welfare.' These great societies are co-operating to make a reality of the ideal hopes of the men who have died. They are fighting the eternal warfare against the forces of poverty, disease and disaster."

SUB-COMMITTEES CHOSEN.
The following sub-committees, which had been named by the chairman, Judge Samuel, were confirmed by the memorial committee:

Executive Committee—H. C. Capwell, chairman; W. W. Chapin, Grant D. Miller, Geo. Sheldon, Samuel J. Donahue, Chas. E. Johnson, John P. Smith, Miss Ethel Moore, Mrs. M. A. Anderson, Geo. W. Hatch, Mrs. Anna C. Law, Mrs. Addie L. Mosher, J. Loran, E. Edgar, L. J. Ormsby, Harmon Bell, E. J. Ormsby, John Donovan, Geo. J. Hans, Frank A. Leach, Jr., Harman J. Johnson, Chas. E. Thatcher, E. A. Young, Rev. A. T. Brown, Rev. J. M. Brown, M. Goldwater.

Committee on the Memorial—Dr. W. S. Porter, chairman; William J. Hamilton, Joseph R. Knowland, Mrs. Hamilton Mitchell Porter, Murray Lingame, Frederick Kahn, Clinton S. Dodge, Mrs. Thomas Hogan, Sr., B. P. Shapiro, Fred W. Hunter.

Ways and Means Committee—James Travese, Geo. E. Randolph, A. S. Lavenson, R. C. McWilliams, Wm. H. Oliver.

Legal Committee—Peter J. Crosby, Jess J. Dulles, Jesse Robinson, W. J. Hayes, Walter D. Cole.

Publicity Committee—W. W. Cribbins, E. C. Elliott, Max Stern.

At the suggestion of Judge Samuel, when the memorial committee last evening it adjourned out of respect to the memory of ex-President Theodore Roosevelt. High tribute was paid to Colonel Roosevelt by P. H. Pratt, Attorney Clinton G. Dodge and Rev. Alexander Allen.

Expecting Death, He Visits Undertakers

SAN FRANCISCO, Jan. 7.—Ernest Sydekum, a furniture maker, recently recovered from an influenza attack, felt a relapse coming on, Sunday, after he had left his bed. He went to an undertaker he knew, made arrangements for his funeral and returned to the Mount Zion Hospital. Today he is dead.

Sydekum, who was 56 years old, had thought himself cured, he told the undertakers. After being up several days he felt a relapse coming on and said that he had a premonition of death. He had lived in San Francisco for ten years.

"Dynamic Force" of Advertising Is Told by Speaker

SAMUEL P. JOHNSON

Samuel P. Johnson Points to Great Achievements in World Publicity.

That the year just closed was the most eventful in the history of mankind and that things have happened so rapidly that the people of the world have hardly been able to keep track of them, was the assertion of Samuel P. Johnson, of the University of California, in a talk before the advertising club of the Oakland Chamber of Commerce at a luncheon in the hotel Oakland today. The speaker summed up the situation by quoting the remarks made upon that subject by President Wilson in his Guild Hall speech in London, which were:

"The peoples of the world want peace—and they want it now, not merely by conquest of arms, but by agreement of mind."

"That is the point," said Johnson, "by agreement of mind. Advertising is the name by which we know this subtle force, the psychology of the mind. Advertising came into its own during the great war, and it was utilized by the nations to arouse enthusiasm, to spur their people by words to deeds."

SALE OF LIBERTY BONDS.
Sale of Liberty Bonds, \$2,000,000 Americans was cited by the speaker as an evidence of the power of advertising as a means of reaching the public.

Johnson said that the government's dignified course of advertising had resulted in the raising of millions of dollars for the Red Cross and other war activities and in forwarding its other great undertakings, including the man-power of the nation.

He said that in commerce and manufacturing advertising is a common factor, becoming more general in its application as it is better understood. The speaker told how Harvard University, by research and investigation, has shown that the investment in advertising by different lines of business, or more properly speaking, by some lines, is the most profitable investment made by the university in question a retail shoe dealer may properly appropriate 2 1/2 per cent; while a stove manufacturer is advised to appropriate 1 per cent.

Johnson said that with the ratio determined, it should not be changed. As the volume of sales grows, he said, the sum to be invested in advertising will be larger each year, while the percentage remains the same.

Advertising was described by the speaker as a dynamic force, so powerful that it can be engaged by a man to use some kind of advertising to further his undertaking.

In conclusion the speaker said: "If you are anything to the world, is there something to which you can hitch this great force to your advantage? It is at your command. The track is laid. The train runs on regular wheels. Get on board and join the company of those progressive business men who are utilizing advertising to make their investments pay."

An advertising class, of which Johnson is to be the instructor, will be organized at the Hotel Oakland tonight under the auspices of the extension division of the University of California.

2 OAKLAND LADS AMONG WOUNDED

With the 40 wounded soldiers who arrived yesterday at the Letterman general hospital, were two Oakland boys, Earl R. Criskard and Myron F. Nelson, a former newspaper man. A number of the 26th division in command of Captain Abercrombie who gave unstinted praise to his soldiers.

Captain Abercrombie, according to the boys, was something of a hero himself. He was the thickest of the Argonne forest fighting, he paused a moment on a knoll to give orders. A shell burst beside him, tearing off one of his legs. Leaning on the arm of one of his lieutenants he continued the orders before he should go down, as he felt. The boys have many stories of heroism to tell of their companions in fighting.

Among the wounded men who returned yesterday were:

John V. Flaherty, Berkeley; Leo Sutter, Salem, Oregon; Albert Curtis, Mendocino; Stanley Royer, Porter, Washington; Tracy Pulton, Los Angeles; Bora S. Hoyle, Bainier, Washington; Gustave C. Crepin, Vancouver, Washington; Grover F. Reidel, Vada, Washington; Earl B. Anderson, Seattle, Washington; Newman J. Karl Jr., 1051 Capp street, San Francisco; George J. Dibraby, geologist, Los Angeles; Paul A. Williams, Rockford, Ill.; Ruyuan V. Irons, Hagerman, Idaho; Edward E. Conners, Glendale, Oregon; Neil S. Nelson, Rochester, Washington; Harry P. Stark, Caruthers, California; George Ferguson, Glendale, Washington; Harry R. Gleason, Aberdeen, Washington; Charles H. Barton, Seattle, Washington; William S. Expecting Death, He Visits Undertakers

SAN FRANCISCO, Jan. 7.—Ernest Sydekum, a furniture maker, recently recovered from an influenza attack, felt a relapse coming on, Sunday, after he had left his bed. He went to an undertaker he knew, made arrangements for his funeral and returned to the Mount Zion Hospital. Today he is dead.

Sydekum, who was 56 years old, had thought himself cured, he told the undertakers. After being up several days he felt a relapse coming on and said that he had a premonition of death. He had lived in San Francisco for ten years.

BIG BUSINESS IN TRACTORS SEEN

Characterizing post-war business possibilities in the motor truck and tractor field as surpassing anything in automotive history, thirty-five business men, a part of the Butler-Velch-Fageol sales organization, issued a note of optimism at the first annual dealers' convention that will go far toward putting Fageol products—made in Oakland—up in the lead of the automotive business in 1919.

From Seattle and Spokane in the Pacific Northwest, to San Diego and Imperial, in the southern reaches of the state, Butler-Velch-Fageol dealers have gathered in Oakland for a two-day sales convention.

GROWTH IN EVIDENCE.
Presiding at a dinner last night at Hotel Oakland, H. D. Hadenfeldt, sales manager of Butler-Velch, sales organization for Fageol products, under whose guidance many of the sales progress has been made possible, drew out from the 35 odd men around the board reports indicating a steady growth in all their lines of automotive products. The reports of these dealers from all parts of the Pacific Coast indicated that the local product has become well established in the short year it has been on the market.

There were thirty-five men, L. H. Bill, president of the Fageol Motors Company, outlined the factory's plans for 1919 expansion in both truck and tractor production. C. L. Butler, president of Butler-Velch sales organization, told the number of trucks sold in the last year were within 90 per cent of the preliminary production plans at the beginning of the year.

WORK DEMONSTRATED.
Today the Fageol dealers engaged in some very practical field demonstrations with the Fageol walking tractor. Under the expert direction of Rush Hamilton, inventor of the unique Fageol traction wheel, and a director of the Fageol Motors Company, the 25 men, overhauled and ready for work, got better acquainted with the carefully developed farm tractor. A peach orchard adjoining the factory was plowed, cultivated and other phases of farm work demonstrated. Actual operation of the tractors in all sorts of field conditions was shown.

This evening will find the group around the banquet table at Hotel Oakland, from which they will go to their homes. Those present up to last night's meeting were: C. L. Butler, Oakland; W. B. Fageol, Oakland; J. S. Ellis, Oakland; W. W. MacDonald, Oakland; Sterling Price, Oakland; Samuel Elliott, Watsonville; Walter L. Paine, Santa Cruz; D. S. Jones, Oakland; Lloyd Velch, Oakland; Rush Hamilton, Oakland; L. Artana and Henry C. Artana, San Jose; C. D. Busch, Woodland; H. W. Thomas, Oakland; A. H. Patterson, Stockton; A. J. Geldermann, Oakland; Ralph H. Butler, Fresno; L. H. Bill, Oakland; A. R. Dawson, Seattle; H. D. Hadenfeldt, Oakland; Charles H. Perry, Spokane; W. W. Sheane, Yakima; W. H. Knuckey, G. R. Verner, San Francisco; Fred Hauss, Marysville; John G. Evans, P. J. Reid, F. W. Cooper, L. L. Baumgartner, G. McNeil, E. J. Waepner, Oakland; C. B. Neuman, W. A. Bush, Watsonville; James G. Starford, Oakland.

SALE OF LIBERTY BONDS.
Sale of Liberty Bonds, \$2,000,000 Americans was cited by the speaker as an evidence of the power of advertising as a means of reaching the public.

Johnson said that the government's dignified course of advertising had resulted in the raising of millions of dollars for the Red Cross and other war activities and in forwarding its other great undertakings, including the man-power of the nation.

He said that in commerce and manufacturing advertising is a common factor, becoming more general in its application as it is better understood. The speaker told how Harvard University, by research and investigation, has shown that the investment in advertising by different lines of business, or more properly speaking, by some lines, is the most profitable investment made by the university in question a retail shoe dealer may properly appropriate 2 1/2 per cent; while a stove manufacturer is advised to appropriate 1 per cent.

Johnson said that with the ratio determined, it should not be changed. As the volume of sales grows, he said, the sum to be invested in advertising will be larger each year, while the percentage remains the same.

Advertising was described by the speaker as a dynamic force, so powerful that it can be engaged by a man to use some kind of advertising to further his undertaking.

In conclusion the speaker said: "If you are anything to the world, is there something to which you can hitch this great force to your advantage? It is at your command. The track is laid. The train runs on regular wheels. Get on board and join the company of those progressive business men who are utilizing advertising to make their investments pay."

An advertising class, of which Johnson is to be the instructor, will be organized at the Hotel Oakland tonight under the auspices of the extension division of the University of California.

2 OAKLAND LADS AMONG WOUNDED

With the 40 wounded soldiers who arrived yesterday at the Letterman general hospital, were two Oakland boys, Earl R. Criskard and Myron F. Nelson, a former newspaper man. A number of the 26th division in command of Captain Abercrombie who gave unstinted praise to his soldiers.

Captain Abercrombie, according to the boys, was something of a hero himself. He was the thickest of the Argonne forest fighting, he paused a moment on a knoll to give orders. A shell burst beside him, tearing off one of his legs. Leaning on the arm of one of his lieutenants he continued the orders before he should go down, as he felt. The boys have many stories of heroism to tell of their companions in fighting.

Among the wounded men who returned yesterday were:

John V. Flaherty, Berkeley; Leo Sutter, Salem, Oregon; Albert Curtis, Mendocino; Stanley Royer, Porter, Washington; Tracy Pulton, Los Angeles; Bora S. Hoyle, Bainier, Washington; Gustave C. Crepin, Vancouver, Washington; Grover F. Reidel, Vada, Washington; Earl B. Anderson, Seattle, Washington; Newman J. Karl Jr., 1051 Capp street, San Francisco; George J. Dibraby, geologist, Los Angeles; Paul A. Williams, Rockford, Ill.; Ruyuan V. Irons, Hagerman, Idaho; Edward E. Conners, Glendale, Oregon; Neil S. Nelson, Rochester, Washington; Harry P. Stark, Caruthers, California; George Ferguson, Glendale, Washington; Harry R. Gleason, Aberdeen, Washington; Charles H. Barton, Seattle, Washington; William S. Ferguson, Tlinio, Washington; Ray Willis, Hoquiam, Washington; Edward E. Tiller, Redmond, Oregon; Albert A. Leyner, Eugene, Oregon; Claude H. Shotwell, Snohomish, Washington; George Hubert, Hagerman, Idaho; Everisto Hossman, Los Angeles; Harry L. Brown, Tacoma, Washington; George M. Ham, Lorne, Oregon; Willard Hush, Douglas, Arizona; Duglio A. Aberg, Creston, Washington; Benjie H. Norton, Astoria, Oregon; William A. Martinez, Tucson, Arizona; and Grover C. Burton, Hotville, California; John P. Palin, 323 Alabama street, San Francisco.

HERO BLANCHARD GRADUATE OF U. C.

Lieutenant Kenneth L. Blanchard, whose name appeared in yesterday's casualty list and who just before his death from disease in France was awarded the Croix de Guerre for gallant conduct in removing wounded comrades from the danger zone, was a well known University of California man, graduating from there in 1914 and thereafter becoming a student in the law school. He was for six years in the ambulance corps of the university, was sent to Allentown, Pa., for training. Later he was sent to France, where he won his commission as first lieutenant, and was transferred to the French army.

At the university Blanchard was a member of the Psi Upsilon fraternity, Phi Beta Kappa honor fraternity and the Phi Delta Phi, the legal fraternity. Lieutenant Blanchard is survived by an aged father, who lives at National City; two brothers, Lawrence, who is in France with an engineering corps and a younger brother, and Fred, an instructor in Rice Institute.

Skin Comforts For Our Boys Found In Cuticura

The Soap to Shave, Bathe and Cleanse, the Ointment to Cure, the Lotion to Refresh.

These fragrant, super-creamy emollients soothe and heal eczemas and rashes, stop itching, clear the skin of pimples, the scalp of dandruff and soothe the hands of chaps and sores. Also for cuts, wounds, stings of insects, sunburn or windburn.

There is only one Cuticura Soap. The Mailing, 75¢. The Ointment, 75¢. The Lotion, 75¢. No other soap, ointment or lotion is so good. No other soap, ointment or lotion is so good. No other soap, ointment or lotion is so good.

Famous Old Recipe For Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in less than 24 hours. Get 2 1/2 ounces of Pinex from any druggist, pour it into a pint bottle, and add plain granulated sugar syrup to make a pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs, loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the coughing throat tickle and dreaded cough disappear. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything less. Pinex will give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

ELSTON ASKS PURCHASE OF LOWER CAL.

Purchase of Lower California and a part of the Mexican state of Sonora from the republic of Mexico is the proposal of Congressman Arthur Elston of Berkeley, who has introduced in the House a resolution calling for the opening of negotiations.

Purchase of the territory in question, Elston holds, will solve the present problems confronted by the United States and Mexico, affording a fund that will reduce the national debt, afford protection for the Imperial valley water supply, dependent on the Colorado river, which traverses Mexico, and opening a way to settle important claims pending against the southern republic.

SETS FORTH PRECEDENTS. Elston's resolution is addressed to the president of the United States as the man who could open the purchase negotiations. He sets forth a number of precedents for the purchase and holds that the arrangement would provide a topographically neutral frontier.

In connection with the resolution Elston cited the following statement: "The Vera Cruz expedition and the pursuit of Villa cost the United States about \$125,000,000. In both instances this nation undertook police work which should have been performed by Mexico. The tremendous expense of the two Mexican expeditions is equitably chargeable to the Mexican government. The United States has in a number of cases recognized claims of aliens and of foreign governments for loss of life and property resulting from failure on our part to give proper protection within our borders."

AMERICAN LOSSES HEAVY. "The number of Americans that have been murdered in Mexico in recent years has never been given out officially, but it is known to be great. The loss in American property in Mexico during this same time has not been tabulated, but the total will be tens of millions."

"A reckoning with Mexico must come long. We shall claim only what we are entitled to, and equity entitles us to claim. Mexico holds herself out as a self-sufficient government, needing no guardian and able and willing to perform all international obligations. It would be in the Mexican mind an offense and a patronizing act to treat her as inferior or as questionable."

"If she insists on assuming this role she should step up and pay. The purchase by the United States of Lower California and of contiguous lands in northern Mexico will serve the purpose of providing a credit to pay our just claims and afford Mexico a fund for reducing her Mexican debt and for making imperative internal improvements. It will at the same time reduce to a minimum all border difficulties and complications."

"The purchase of Lower California and the territory adjacent to the outlet of the Colorado river will in future remove many sources of international friction. At present the great Imperial valley in California is absolutely dependent on the Colorado river, which traverses Mexico. The Gadsden purchase from Mexico and the purchase of Alaska from Russia furnish ample funds for the present resolution."

VOTING ON STRIKE IMMEDIATE TRADES

A protracted discussion of the reelection by the California Metal Trades and California Foundrymen's Associations of the two compromise wage propositions at the National Trades Union Convention last week, ended yesterday by a joint session of the organizations yesterday by the Iron Trades Council of the San Francisco Bay district, was followed last night at the meeting at the Hotel California by the passage of a strike recommendation. The strike referendum will be forwarded to all of the unions affiliated with the National Trades Union, and a vote be taken and returned to council headquarters within two weeks.

About 200 plants and approximately 10,000 expert metal craftsmen were affected by a strike. Most of the firms and men concerned are, however, located on the San Francisco side of the bay. The matter is in dispute about what are termed "outside" shops and have reference to metal craftsmen employed in Eastbay and other shipyards in this vicinity.

The propositions submitted to the Metal Trades and Foundrymen's Associations for consideration provided first that the retroactive feature of the Macy award be retained, and secondly, that the principle of a "no strike" clause be put in effect in all outside shops at once, but that it be as of October 1, instead of as of August 1, as provided in the Macy award. The recommendation of the proposition was to eliminate the retroactive feature of the Macy award entirely and for the employers to adopt in place thereof a wage increase of 6 per cent as of January 1.

Aged Grand Canyon Guide Passes On

FLAGSTAFF, Ariz., Jan. 7.—John Hance, known to almost every tourist who ever visited the Grand Canyon of the Colorado, is dead at his home here from a stroke. He was 84 years old. Captain Hance, who always claimed to have built the first trail down into the canyon, has for years been chief guide in the employ of the railroad and hotel company at the canyon.

Judge St. Sure Is Given Flower Token

ALAMEDA, Jan. 7.—Superior Judge A. P. St. Sure, former city attorney of Alameda, who assumed his new judicial position yesterday, was presented yesterday with a basket of flowers by his former associates in the Alameda city hall.

OAKLAND MINISTERIAL UNION.

The Oakland Ministerial Union will hold an important session tomorrow at 1 o'clock at the Y. W. C. A. to discuss constitutional affairs and more thoroughly organize the association. The regular session will be preceded by an informal luncheon at the same place at 12:30.

Oakland to Seek Hun Trophies Demands For Cannon Widespread

Mayor John L. Davis today suggested to Police Judge George Samuels, head of the Oakland war memorial committee, that formal request be made of Congress for captured German cannon and heavy artillery to be used for park decoration and memorial purposes.

The request follows similar action taken by cities all over the United States. The War Department has announced that thousands of cannon and high powered guns captured by the American troops in France and on the banks of the Rhine were to be brought to this country in a number of requests for these as memorial units have poured in.

The plan is to secure the guns, spike them and send them, similarly to the Spanish cannon sent broadcast throughout the country at the conclusion of the Spanish-American war. Oakland, has taken the initiative of all other coast cities with a request for Hun guns.

THE MORE THE MERRIER. An American city or town without a German cannon perched high on the public square within a year will be a city without a Congressional "pull."

Before the Hun artillery pieces had hardly had time to cool after four years of booming across No Man's Land.

Robbery Follows Murder of Daughter Aged Woman's Troubles Grow Fast

SAN FRANCISCO, Jan. 7.—Mrs. Katherine White, 721 Buena Vista avenue, 75 years old, and for forty years a resident of this city, who has amassed a comfortable fortune, reported to the police a few days ago that five men in army uniforms robbed her of a handbag containing \$31. It was the beginning of trouble for the same day, brought her word from the north that a daughter and two grandchildren had been slain and that her son-in-law, Norman E. Burnett, was being held in the Alcatraz prison for the murder of his wife and children.

This tragedy follows one of four years ago when John Frank, a retail butcher of San Francisco, who had married Mrs. White's daughter, Mary Ellen, became despondent, shot his wife to death and drank poison before turning the gun upon himself. Mrs. White was the only other person in the house at the time.

The skeletons of Elizabeth Burnett and her two children, Billie, aged 6, and Walter, aged 4, were discovered on the 15th of June, 1915, in a grave on the edge of Hawk's Prairie, near Olympia, Wash. Mrs. Burnett was a graduate of Lick High School. She was married eight years ago. Three years ago she was a ship calker, her husband and returned to her mother's house. In March last a reconciliation was effected, and Mrs. Burnett returned to Washington with her husband, who was a ship calker.

A month later Mrs. White received word that quarrels were continuing, and that her daughter contemplated

"Cured a 'Grouch' By Internal Baths

Mr. Joseph A. Wells writes Dr. Chas. A. Tyrrell of New York, as follows: "On the 15th of June, 1916, I purchased a bottle of 'The Cascade' and used nothing but the Cascade for almost a month. I feel like a new man; I want to be pleased to everybody. Before I used the Cascade I was a grouch. Did not like anybody and could not be pleased."

If you bathe internally with the "J. B. L. Cascade" you will find yourself all the brighter and more cheerful. Polysomnolous waste in the lower intestines makes us bilious, blue, dull and nervous. Internal baths with the Cascade cure for constipation—just antiseptic warm water properly applied. Drugs force Nature—the J. B. L. Cascade gently assists her.

It is produced by Chas. A. Tyrrell, M. D., of New York, who has specialized on internal bathing for 25 years, and will be shown and explained to you by the Dr. Eugene C. who will also be glad to give free on request an interesting booklet called "Why Man of Today is Not as Efficient," which covers the subject in a very thorough way. Clip this out as a reminder, and ask for the book because it is the only one in the neighborhood of an Owl Drug Store.—Advertisement.

DON'T NEGLECT A RHEUMATIC PAIN

Go after it with Sloan's Liniment before it gets dangerous

Apply a little, don't rub, let it penetrate, and—good-by, twinge! Same for external aches, pains, strains, stiffness of joints or muscular, lacerated bruises.

Instant relief without mussiness or soiled clothing. Reliable—the biggest selling liniment year after year. Economical by reason of enormous sales. Keep big bottle ready at all times. Ask your druggist for Sloan's Liniment—30c, 60c, \$1.20.

Soan's Liniment

HOME MADE TEA FOR CONSTIPATION

Is used by entire families because it is purely vegetable, does the work and costs very little.

Why pay high prices for Liver and Bowel remedies when none are better than Dr. Carter's K. and L. Tea, which can be brewed at home, and a small package will last a long time?

Thousands of old people will tell you they have been drinking it for years, and after the liver and bowels have been brought into condition in a few days by a before bedtime cup, that only an occasional cup is afterwards necessary to keep one feeling fit and fine.

People who drink a cup of Dr. Carter's K. and L. Tea once in a while, seldom, if ever, have any bilious attacks, sick headaches or sallow skin. It is good for boys and girls, especially those who are peevish and fretful. Druggists have been selling it for many years.—Advertisement.

Soldiers Under 21 Can Secure Lands

Soldiers less than 21 years old have been accorded the same privilege as those who have obtained their majority when it comes to homesteading government lands, according to a bulletin made public today from the United States land office. The bulletin says: "The credit and age under 21 are entitled to all the benefits of the homestead laws applying to persons over 21. Applicants are not required to examine the land personally. They may have the period of their military service credited as residence, but must live on the land one year before receiving patent."

Application must be made within six months after discharge.

Application for entry may be verified before any qualified officer.

METCALF PRAISE GIVEN ROOSEVELT

Victor H. Metcalf, who was a member of the cabinet as secretary of commerce and labor and later as secretary of the navy when Theodore Roosevelt was President of the United States, offers this tribute to the man with whom he was so intimately associated:

"Thank God, there is not one ignoble memory in all the shining pathway of Colonel Roosevelt's life. Simple in his habits and approachable to all, he has embodied the highest type of character in our national life. Soldier, statesman, patriot, upholder of truth and justice, his name will go down in the ages to come, written in golden letters upon the imperishable pages of history."

"His is a name that stands for lofty patriotism, for high ideals, for strict integrity, for devotion to country, for the upholding of liberty for fearlessness and honesty in the discharge of duty and, above all, it is a name that stands as a synonym for probity, for devotion to family and home, for high moral and Christian character."

"Men build their own monuments. Colonel Roosevelt's monument will be the love and affection of the American people for the generations to come."

GROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if Tongue Is Coated, Breath Hot or Stomach Sour.

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless, fruit laxative, and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Advertisement.

APPLY POSLAM TO END DISTRESS OF ITCHY SKIN

It isn't the quantity of any remedy you put on your skin to heal the disorder. It is the QUALITY that works the desired results, and in quality Poslam excels. Satisfaction and use Poslam soundly and next morning examine the skin and see just what Poslam has done.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.

And Poslam Soap, being medicated with Poslam will benefit your skin while used daily for toilet and bath.—Advertisement.

Swamp-Root For Kidney Ailments

There is only one medicine that really stands out pre-eminent as a medicine for curable ailments of the kidneys, liver and bladder. Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of distressing cases. Swamp-Root is a physician's prescription for special diseases, makes friends quickly because its mild and immediate effect is soon realized in every case. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Oakland Daily Tribune.—Advertisement.

Old Favorite Tonic Laxative

When constipation bothers you and you get feverish and out of sorts remember that old reliable vegetable

Dr. Bell's Pine Tar Honey for Coughs & Colds

Nuxated Iron increases strength and endurance of delicate, nervous run-down people in two weeks' time in many instances. It has been used and endorsed by such men as: Dr. L. M. Shaw, former Secretary of the Treasury and Ex-Governor of Iowa; Forman, United States Senator and Vice-President of the National Chamber of Commerce; U. S. Commissioner of Immigration; Hon. Anthony Caminetti, also United States Judge; W. W. Aldrich, of the Court of Claims of Washington, and others. Ask your doctor or druggist about it.

What France Has Done for Democracy

France has poured out blood and treasure to the breaking point to make the world safe for democracy. America owes her an enormous debt of gratitude for this and also for perfect remedy for stomach, liver and intestinal trouble found by her scientists and used with reported marvelous results in this country.

Geo. H. Mayr, for many years a prominent Chicago chemist, imports the ingredients and sells this remedy under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince you money refunded.—Osgood's Dept. Drug Stores and Druggists everywhere.—Advertisement.

THE NATION'S LOSS.

Death not only is no respecter of persons, but it respects not the times, nor the emergencies of human affairs. It claimed former President Roosevelt when he was urgently needed by America. Colonel Roosevelt was more than a citizen who had won distinguished honors from his fellow men; he was an influence for sturdy, upright, fearless Americanism. He was a relentless foe to hypocrisy, slothfulness, crookedness and "pussy-footing" who could be depended on to get in action when the occasion demanded. He was neither awed by power nor too fastidious to attack small malefactors.

He was needed during the days just preceding the war. He attacked the hyphen in American citizenship and patriotism in official and public life with such vigor that the conscience of the people was aroused to purifying heat. The hyphenate, unless he was an enemy agent, changed his name and repudiated that allegiance he had wrongly held for a foreign government and monarch. Poltroons retired to silent and dark places; the temper of the people which Colonel Roosevelt typified caused some of the official poltroons to die of broken hearts and others to absent themselves on "sick leave."

Colonel Roosevelt censured the government for its neglect and its clumsy inactivity in some departments of war work, particularly the mismanagement of the aircraft administration. Spokesmen for the administration publicly resented this and charged the former President with obstructive criticism, but the government ultimately did what Roosevelt demanded of it. Subsequent events have proved the correctness of all the criticism, and furthermore shows that, considering the provocations, that it was mild and temperate compared to what might have been said.

It is too early yet to determine whether Colonel Roosevelt's views regarding the peace settlement and the League of Nations are correct; but the fact that he has been consistently right on important public questions and that others often have been wrong creates a prejudice in his favor.

Many problems of reconstruction and after war adjustment are before the people, regarding which the far-seeing, penetrating vision of Colonel Roosevelt would be most welcome. Unfortunately the nation is to be denied his services of counsel and leadership. These will be sadly missed. It will be hard to do without them, so it now seems. Colonel Roosevelt did not quit working as a patriotic citizen when he retired from the presidency. He worked and fought manfully for America at all times and his friends and followers were legion.

He might have been saved to America for many more years of vigorous leadership. He was only sixty when he died. But his influence will long continue a power in national thought and judgment; and in such proportion as citizens everywhere take his life as their inspiration to oppose tender dealing with the forces of evil, to rebuke disloyalty to the nation, hold up to public scorn inefficiency, inadequacy and impotence in the government. Some of the Colonel's ways were rough ways, but it has never been demonstrated that another course would have been effective.

FOREIGN TRADE TACTICS.

American exporters should consider carefully the report that the native women of Tahiti want 60,000 corsets before they set out to fill the demand. One of the greatest handicaps to the expansion of American foreign trade in the past has been the lack of care exercised on the part of exporters to please their customers and thus insure a return order. It has been charged against them, and correctly so in many cases, that they were willing to sell any article anywhere, so long as they could get the money for it.

There is probably not another article of the handiwork of man which is more utterly useless to the native women of Tahiti than corsets. The only thing that can possibly give corsets in lack of utility is woolen socks. This comparison comes to mind because it is of record that an American exporting firm once sent a consignment of woolen socks to a native merchant of Singapore, a city three degrees from the equator and which suffers 100 inches of rainfall annually. It may be safely ventured that this exporter never filled another order for the Singapore merchant.

The climate of Tahiti is almost the same as that of Singapore. All rules of reason dictate

that the inhabitants of both places wear as few clothes as possible. Yet there are some traders who would send furlined great coats to the unsophisticated natives if the money in payment was forthcoming in advance. Foreign trade cannot be built up to permanent prosperity so long as we take advantage of the ignorance of those we deal with. It is an infallible rule of success to sell only that which is useful to the purchaser.

THE FINANCES OF NATIONS.

According to the annual review of world financial conditions by the London Statist, the United States holds the greatest gold reserve of any country in the world. Its store of yellow bullion and coin is in round numbers \$2,000,000,000. Russia claims to stand in second place, with the gold holding of the Bank of Russia at \$1,753,828,000. The figure for Russia, however, is of September 29, 1917, and it is impossible to tell what happened to the gold reserve in the fifteen months of anarchy intervening between that date and the present.

The Bank of France holds the third largest stock of gold of all the banking institutions in the world. On October 17, 1918, the total amounted to \$1,121,134,500. It has increased since but very slightly. It is therefore, so far as gold is concerned, the third strongest bank in the world, assuming the Russian claim to be well founded. This is of importance, partly because of the immense note circulation of the Bank of France and partly because it reassures the public. Gradually, no doubt, the note circulation will be materially reduced. It is not probable that there will be much decrease for the first year of peace at all events, the most urgent need of France as soon as peace returns will be to renew and reconstruct the cities, towns, and homes that have been destroyed; but as confidence in the future returns, as people work harder and longer, and as they save more and more, the note circulation will be gradually reduced and ultimately will be brought within the ordinary limits.

The Imperial Bank of Germany holds the fourth largest amount of gold. On October 7, 1918, according to its returns, it held \$619,841,200. Germany has a vast note circulation also. Whether it will be able to reduce its note circulation rapidly remains to be seen. Much, of course, will depend upon the conditions of the peace, and much also upon the policy of the government when peace returns, whatever it may be.

Great Britain comes fifth as a holder of gold. On October 16, 1918, which is the nearest date to that taken for both France and Germany, the amount held by the Bank of England was \$494,908,500. Of this amount \$138,695,300 is held against government notes.

Japan comes sixth among the belligerent nations as a gold holder. On August 24, 1918, the gold held by it amounted to \$317,398,000. Japan has a very small note circulation, considering all the circumstances of the time, namely \$384,876,900. If, therefore, it desires to do so it is in position to reduce its circulation very materially.

Italy comes seventh. On August 31, 1918, it held gold amounting to \$159,275,700; but its circulation of notes was not very extravagant, \$1,567,426,700.

Austria-Hungary comes eighth with \$53,531,500 of gold on December 7, 1917. Against this there is a note circulation of \$3,597,803,500.

In regard to the amount of notes in circulation, Russia comes first, with \$8,935,950,000; France second, with \$5,962,620,700; the United States third, with \$4,144,301,700; Germany fourth, with \$3,843,571,400; Austria-Hungary fifth, with \$3,597,803,500; England sixth, with \$1,687,551,300; Italy seventh, with \$1,567,426,700; and Japan eighth among the belligerent nations, with \$384,876,900.

These figures may mean much in estimating the relative financial strength of the various nations, or they may mean nothing. But it is interesting to observe that the United States is first as to gold reserve and third as to the face value of note circulation. Considered in connection with the fact that the United States is the creditor of European nations to the extent of approximately nine billion dollars, it would appear that the claim of America's financial supremacy is well founded.

But a financial "status" is not stationary. It shifts easily and often quickly. Unless the methods and conditions prevailing before the war are corrected by energetic action on the part of the government and industry and commerce our present financial prestige may be quickly lost.

The Department of Labor has announced that no more permits for the importation of Mexican and West Indian labor will be issued, and that the permits now in force will be void after January 15. Alien laborers already here will be permitted to expatriate gradually. The admission of semi-skilled workmen from Canada will also be discontinued, but the elastic arrangement whereby skilled workmen are admitted when they cannot be employed in their own country and when consent is given for their departure therefrom, will be continued for the present. The importation of laborers from south of the line did not reach the proportions and was never the important industrial resource that was expected. The Mexican laborer, though strong and capable, has peculiarities that militate against his usefulness in the American industrial scheme. Not the least of these is off recurring feast days; also his disinclination to work as soon as he gets a few days' store ahead.

NOTES and COMMENT

Advises from Washington are to the effect that the watchfires started to further woman suffrage have been discontinued. It would be interesting were it disclosed whether the discontinuance is due to the weather or to a realization that it was an ineffective measure. Either reason is good.

It is going to be difficult to agree on plans for war memorials. Opinions are as divergent as it is possible for them to be. Each community is anxious to do something to show its appreciation of the men who went to the war, but there has not as yet been a suggestion that makes a hit all around. Even the primary question whether a memorial should be simply a memorial, or take the form of a utility, has not been settled. But there is general agreement that something should be done to show the American gratitude.

The Germans appear to be still obsessed with the idea that the Americans are "easy." Probably among themselves they are yet characterizing us as "idiotic yankees." But they failed to put off disabled and obsolete cannon in fulfillment of the terms of the armistice. Accounts tell how eighty-eight were selected at Colaba and how they must be replaced by able-bodied and up-to-date ordnance by the 10th.

The accidents from firearms that are continually occurring to boys suggests the unwisdom of parents bestowing upon their children guns and pistols as presents. There is no shooting in the neighborhood of cities that boys may indulge in. The old predilection to shoot something has outlived the something to be shot. The boy in the vicinity of a city with a firearm is a danger to himself as well as others.

The auto thief is the lineal descendant of the horse thief, and is more exasperating than that operator ever was. Yet he enjoys a strange leniency. In consequence of which he is multiplying in the land. Nineteen automobiles were stolen in San Francisco on New Year's night.

The proposition to purchase Northern Mexico is being considered, and it would be a beneficent transaction for all concerned. Not the least benefit to both sides would be the fact that Villa would be included as one of the fixtures of Mexico. This would get rid of him and the United States would get a real chance at him.

Conditions in Russia seem just as bad as they can be. Hun savagery was the limit; but they were for a purpose, though of course a bad purpose. The Russian barbarities are merely almost play given to beastly natures. The Russian situation seems to be civilization's latest problem today.

The death of Count von Hertling after a very brief illness suggests the strain that those who directed the Hun war enterprises were under. It is probable he was worn himself out while Chancellor. While the Huns worried the civilized world for more than four years, it was not all skill and beer at home.

Prospective sightseers who are laying plans to visit the European battlefields are advised to take along their lunches. Otherwise they will have to pay fifty cents for a boiled potato, and sixty cents for a sliver of butter.

A despatch tells about a hundred thousand German cooks and waiters going on strike. Tending to discredit the representations as to a food shortage in that country. Cooks do not need to strike in a famine situation.

From the many interviews and letters that get into print may be gained the American soldier's experience with and opinion of the boche—an experience and opinion that is sure to color the American estimation of the German for many a long day.

SPIRIT OF THE STATE PRESS

It is almost impossible for the rest of the world to understand the German point of view. The basis for many of their actions since the war began is beyond our grasp and their attitude toward us they were forced to surrender is almost unintelligible. Modesto News.

California is not the only State to have a commission on commissions, or a commission on efficiency and economy, as it is called in most States. The same situation in most of California has grown up everywhere else, and the recognition that the State has come not to destroy but to organize and systematize these agencies of government seems to have arisen almost simultaneously everywhere.—Fresno Republican.

Six buck Indians, Lagunas, graduates of Carlisle, but now employed in the Santa Fe railroad shops and yards at Riverbank, within the Modesto ring with their native dances and music and cries last night. After doing their stunt at home they sought to honor Modesto with something out of the ordinary. The celebrants were in charge of master also of one of the drums that beat the cadences of the dance and softened the yells and hoop-las of the regular Indian voices.—Modesto News.

As indicating how closely every school of fish within one hundred miles of San Pedro is being watched, just let the report get out that a school of fish has been sighted or located in a thousand feet of water at some particular spot. In less than ten hours there are 25 boats at the particular place where the fish were reported. If it is a large school, there are a hundred boats, and the fish are very rapidly thinned out.—Catalina Islander.

LIFE'S LITTLE JOYS BACK EAST!

A TIMELY PRESENT—NOT GENUINE WITHOUT THE ORDER.

WEATHER REPORT

Forecast.
Oakland and Vicinity—Fair to night and Wednesday, heavy frost in the morning, light northeasterly winds.

Balance of California—Tonight and Wednesday, fair, heavy to killing frost in the morning, light northeasterly winds.

Nevada and Idaho—Tonight and Wednesday, fair, continued cold.

Washington and Oregon—Tonight and Wednesday, fair, continued cold, gentle easterly winds.

Conditions are favorable for continued fair and cold weather in the district with heavy to killing frosts in California in the morning.

LETTER WRITING.
Letter writing is a special talent; it may go with a high order of intellectual power, as in the case of some of the enumerated worthies, or with rather an empty pate; on the whole, in ordinary life, intellectual people are poor letter writers.

James Russell Lowell was disappointed, and to my way of thinking, James Russell Lowell was disappointed, too, with his elaborate wit, his polished style, his ex cathedra decisions on matters of literary taste. But it is hard to judge letters of a past generation; turns of phrase vary, that which once was novel becomes stale, the glitter gets tarnished, opinions then full of daring and adventure are now elementary principles. But still as grammarians deduce rules of grammar from the practice of great writers, so epistolary notes, a great deal of them, are now elementary principles of structure of framework, of the proper method of passing from one subject to another. Classical letters should certainly be introduced into the curriculum of schools attended by the children of what used to be known as the leisure class.—Henry Dwight Sedgewick in the Yale Review.

A SUCCESSFUL WOMAN.
Whenever you find a woman who is regarded as 100 per cent efficient you will also find in her one who has very little to say in business hours. When she does talk, it is usually with a purpose—never to be filling up time. An effort to be silent and attend strictly to business should never betray her, however, into appearing to be either stupid or glib. There is a sharp distinction between cheerful silence and that which suggests sullessness.—The Oklahoman.

TODAY 20 YEARS AGO

A committee composed of Mayor W. R. Thomas, E. A. Heron, Craigie Sharp, G. W. Arper, Wilbur Walker, R. M. Clement, W. A. Dow, W. D. Heilmann, J. W. McElmyns, M. K. Miller, R. W. Snow and Zack Gilpin, prepare a report upon whose showing they depend for an appropriation for a new post office building, of which the following is a summary: Oakland is the second in wealth, third in population; fourth in size of any city west of the Missouri river; population 75,000; including population of proposed annexed territory, 150,000; value of property, \$100,000,000; assessed valuation, \$49,417,000; daily arrival of trains over 300; 15,000 to 20,000 persons pass between Oakland and San Francisco daily; no bank failures in city's history; eight banks, paid up capital, \$1,639,000; deposits, \$9,936,000; commercial department, \$11,000,000; average savings per person, \$15; number depositing, 14,563; nine miles of water front; 1514 vessels unloaded in 12 months; including 1,069,372 sacks of sugar; duty received from coal, \$68,555.

SOLDIERS RETURNED.

When they come back across the narrow sea, And we behold them truly standing there, With all the old-time grace of eyes and hair And boyish limbs, will not some of their joy and make us murmur, "Who are these?" Will they not seem, despite our shrewdness care, Strangers to us whose hearts can never share The proud remembrance of their victories?

We cannot follow where their thoughts ascend, To what keen heights of valor or of pain; We cannot trace the way their dreams may wend. Ah, vain our selfish, and fruitless what we feel, Of dear companionship. Until the end, They never can be wholly ours.—Philadelphia Public Ledger.

THE JESTER

Plain Talk.
Employer—What! You want a raise? Why, when I was an office boy, I had to work five years before I got one.
Office Boy—Yes, sir; but perhaps you were one of those fat head kinds that ain't worth a raise.—Boston Transcript.

The Difficulty.
Two girls were conversing in a Paris tearoom.
"I'm going to learn teaching," one of them said.
"Teaching?" cried the other; "why, I'd rather marry a widower with six children than be a teacher."
"Ah, so would I," sighed the first; "but where's the widower?"—Los Angeles Times.

Logic.
A painter came to work late one morning.
"You're late," remarked the boss.
"How does that happen?"
"Well," answered the painter sulkily, "I stopped to get a haircut."
"That do you mean getting a haircut on my time?" demanded the boss.
"Well, it grew on your time, didn't it?" demanded the painter truculently.—Los Angeles Times.

Wanted Just One Place to Look.
Furniture Dealer—Yes, there is no place present for a man than a handsome writing desk. "Look at this one, for example."
Customer—It's very pretty; but what are all those square things?
"Drawers, madam. That desk has 160 separate drawers."
"Huh! And every time he mislays anything he'll expect me to find it. Show me a desk with one drawer."
Pittsburgh Chronicle-Telegraph.

What Made It Interesting.
A man and his wife visited the Louvre in Paris.
"What struck you most at the Louvre?" asked one of their friends when they returned home.
"Oh," replied the husband, "a picture which represented Adam and Eve, with the apple and the serpent."
"And his excellent wife chimed in: "Yes, we found that very interesting, because, you see, we know the anecdote."
Pittsburgh Chronicle-Telegraph.

INDIA'S SUGAR ACREAGE.
The first official forecast of the sugarcane crop of India for the 1918-19 season is based upon reports received from provinces that contain 98 per cent of the area under cane in British India. The total area planted is estimated at 2,550,000 acres, which is practically the same as the estimate for the 1917-18 season. Seasonal conditions at sowing time were not very favorable in the important cane growing provinces and owing to the delayed rains the prospects of the crop are still uncertain in the greater part of the United Provinces, which contain more than half the cane area of British India.—Boston Transcript.

ORGANIZATION OF STATE LEGISLATURE ALREADY IS UNDER WAY

REDS ROASTED IN INAUGURAL OF GOVERNOR

SACRAMENTO, Jan. 7.—"Unless vigorously stamped out, the so-called J. W. W. will destroy labor as completely as it will destroy every other existing thing which is honest, noble and right," said Governor William D. Stephens in his inaugural address today before a joint convention of the California Legislature. California is on the threshold of the greatest industrial era in its history, the governor said, predicting the surplus labor "that may result from the transition from war time to peace time activities can and will be quickly absorbed," through prompt resumption of business enterprise.

Noting that 135,000 Californians donned the United States uniform and 2000 died in the service, Governor Stephens said it was the state's duty to see that every returning soldier was given employment.

"Happily, California is in a position to furnish immediately employment upon the highways of the state," he continued. "I have arranged with the highway commission that returned soldiers shall have preference and that work will be provided for every California soldier that needs it."

"For the first time," said the governor, "women are sitting as members of the California Legislature. I desire to welcome them among us. I am sure their work will prove beneficial to the state."

"Many of our best laws and improved conditions are due directly to women's participation in public affairs, equally with men."

Referring to "that anarchistic movement which in Europe is termed the Bolshevik and has its counterpart here in the so-called J. W. W.," the governor said it was important that "every person should understand that neither labor organized or unorganized, nor any honest man who works with his hands or with his head, has anything in common with these skulking wielders of the torch and contemptible setters of time explosions."

IS SENTENCED.
SAN JOSE, Jan. 7.—Peter Montoya, accused of giving and selling liquor to soldiers in uniform, pleaded guilty to the charge and was sentenced by Police Judge T. R. Dougherty to 100 days in the county prison.

EARLY VOTE ON DRY LAW IS EXPECTED

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.
SACRAMENTO, Jan. 7.—Election of candidates favored by the administration of Governor William D. Stephens to various offices in the state senate and assembly, virtually without opposition, encourages pro-tem ratificationists to expect early action on the national prohibition amendment resolution by the forty-third biennial California legislature.

It was indicated at Governor Stephens' office that the governor's special message transmitting the constitutional prohibition resolution to both houses for ratification or rejection would be placed before the senate and assembly by Thursday and by not later than Friday.

D. M. Gandier, representative of the California Anti-Saloon League, predicted it would be referred immediately to the committee on federal relations for ratification or rejection. He expressed the belief that hearings in committee would be concluded early next week. Resolutions to ratify the congressional resolution proposing a bone dry amendment to the federal constitution probably will be reported to the senate and assembly by the middle of next week, Gandier says.

WILL SEEK DELAY.
While some of the anti-ratification members of the senate seem to favor quick action on the resolution, leaders of the assembly forces opposed to the resolution indicated they would seek to delay action. Assemblyman Bismarck Bruck of St. Helena, said today it was the intention of the anti-ratificationists to oppose the resolution in committee and out "and to use every legitimate means to delay action and to defeat the resolution."

Developments of the first two days' session seemed to indicate that the federal relations committee of both branches of the legislature would rank high with the more important committees at this session. This became apparent from the fact that this committee would be called upon to handle the dry resolution, probably a number of others on subjects growing out of the war, such as the resolutions introduced today by Senator James C. Nealon of San Francisco.

One of Senator Nealon's resolutions...

CALLED FROM ASSEMBLY BY SICK BROTHER

SACRAMENTO, Jan. 7.—Miss Esto B. Broughton of Stanislaus, assemblywoman and member of the inaugural committee, was called to San Francisco this morning because of the serious illness of her brother. He is confined in a hospital with influenza.

CARPENTER INSOLVENT.
SAN FRANCISCO, Jan. 7.—J. W. Ault, 1210 Barrett avenue, Richmond, a carpenter and member of the firm of Ault & Bevan, filed a petition in voluntary bankruptcy in the federal district court today, listing liabilities of \$6591, and \$115 in assets.

Unions urged the adoption of a federal law prohibiting "enemy aliens" engaging in or conducting business of any kind whatever, and the other asked President Wilson to favor giving the representatives of Ireland a voice in the peace conference. Both were laid on the table to be called up later.

An effort was made yesterday to shorten the sessions of both houses, in order that an early adjournment might be taken out of respect to the memory of Colonel Theodore Roosevelt, who died yesterday at Oyster Bay, N. Y. Resolutions paying tribute to Roosevelt were adopted and speeches were made in the senate by Senator Frank H. Benson and in the assembly by Assemblyman Crombie Allen of Ontario, eulogizing the former President.

THOSE ELECTED.
The presence of four women as members of the assembly—the first women to sit in a state legislative body in California—evoked much interest. Henry W. Wright of South Pasadena, who was elected speaker of the assembly, said "their presence marked a new epoch in California legislative experience" in welcoming them to the assembly.

The senate elected the following officers: A. H. Breed, Alameda, president pro tem.; Joseph A. Beek, Pasadena, secretary; J. W. Kavanagh, Sacramento, assistant secretary; Thomas A. Brown, San Francisco, sergeant-at-arms; the Rev. S. Fraser Langford, Sacramento, chaplain.

Officers elected by the assembly in addition to Speaker Wright were: Clarence W. Morris, San Francisco, speaker pro tem.; B. O. Boothby, Los Angeles, chief clerk; William L. Leffla, Sacramento, sergeant-at-arms; John H. Martin, minute clerk; the Rev. Robert McArthur, Woodland, chaplain.

The senate and assembly met this morning in joint session in the assembly chamber to canvass the returns of the election, November 5 last, for governor and lieutenant governor.

MEASURES ON LABOR TO BE DISPOSED OF

By ALAN MCGEEN
(By International News Service)

SACRAMENTO, Jan. 7.—Labor measures will be to the fore at the present session of the State Legislature. And with the wet-dry fight once disposed of they will furnish the subject of some of the warmest controversies.

The labor organizations will have their usual strong representation in the lobbies, and so, too, will the merchants and manufacturers' associations and the other commercial organizations. At present Paul Scharrerberg, secretary of the State Federation of Labor, is the only representative of the San Francisco Labor Council, presumably Daniel C. Murphy, and those of the three railroad brotherhoods and of the State Building Trades Council.

Max Kuhl, representative of the San Francisco Chamber of Commerce, is authority for the statement that the chamber will back no legislation purposely antagonistic to labor, but will oppose the anti-injunction law "or any other legislation which the organization regards as too radical."

Other commercial lobbyists assert that there will be determined opposition to anything resembling class legislation.

No one has yet measured up precisely the labor strength in the legislature's membership. William Kehoe of Eureka and Walter A. McDonald of San Francisco on the senate side and E. S. Hurley of Oakland and Mrs. Grace S. Dorris in the Assembly, leaders are here in the cause of the workers.

There will be a small codebook full of proposed labor legislation and resolutions.

Of first importance will be the demand from several different sources, for a full investigation of the Mooney case. Then comes the anti-injunction measure, which Governor Stephens vetoed last session.

The anti-injunction bill to be presented this session will differ somewhat from the previous measure, an effort being made to eliminate the generalizations that would make it apply to other than labor cases.

Hurley Places Probe of Mooney Prosecution

BY ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.
SACRAMENTO, Jan. 7.—Resolutions calling for an investigation by the legislature of published charges of irregularity in prosecution of the San Francisco Preparedness Day bomb cases will be introduced at the earliest opportunity by Edgar S. Hurley, assemblyman from Oakland, Hurley said today.

The resolutions may be offered Friday, he said. An effort may be made for immediate consideration in committee of the whole house. It was said to avoid possibility of the resolution being called before consideration on the assembly floor.

BILLS OF DRAFT BOARDS HELD UP

SACRAMENTO, Jan. 7.—Approximately the sum of \$5000 paid out by Adjutant General J. J. Borree and Major Frank Hutton as government disbursing officers for expenses incurred in the draft will either have to be borne by them or their bondsmen unless they can make a showing that the disbursing of the money was properly a government charge. That is the effect of a notice they have received from the comptroller of the United States treasury, notifying them that claims totaling that sum have been disallowed.

It is believed by the officials that the whole matter will be adjusted and that the holding up of claims is only for the purpose of getting nearer complete itemized accounts, vouchers and detailed information.

FIVE-SIXTHS OF U. S. WOUNDED IN FRANCE RECOVER

WASHINGTON, Jan. 7.—Of 17,114 wounded and injury cases tabulated in the American Expeditionary hospitals between October 1 and October 15, 1918, 85.3 per cent recovered and returned to duty, the War Department announced today. The percentage of deaths was 8.8.

Educators Invited to Hear Lecture

All principals and such teachers as desire to attend are invited to a lecture by Dr. Dewey at 7 o'clock in the auditorium of the Y. W. C. A. tomorrow evening. This lecture is given under the direction of the Principals Club.

China Specials

---hand painted pieces priced less than ordinary china

Anyone familiar with the present prices of crockery knows that you can't buy much in fancy dishes for half a dollar. But here are dainty pieces, all genuinely hand-painted, at before the war prices. The special price holds all this week, while they last.

49¢ Each

The three pieces illustrated may be used for bon-bons, nuts, jellies, olives, pickles, etc. The bowl at the right is large enough for serving desserts for two. The oblong dish at the bottom makes a good spoon tray. The condiment set illustrated above consists of a tray, salt and pepper shakers, mustard pot and toothpick holder.

January Clearance Continues---

Among the many interesting items in this big clearance of crockery, kitchenware, etc., are the following:

ODD DINNERWARE at 10¢, 15¢, 25¢
WHITE AND GRAY ENAMELWARE at 25¢, 49¢, 98¢
CUT GLASS PIECES at 50¢ and 98¢
FOLDING IRONING BOARDS at \$1.45
ELECTRIC IRONS, special at \$2.95

No deliveries, no C. O. D.'s, phone orders or charges on sale items

Railroads Are Overlooked by Public

Market Is Apathetic All Day

NEW YORK, Jan. 7.—Lack of public interest in railroads and other investment

issues was the distinguishing feature of today's apathetic stock market.

Oils, motors and food shares, in which professional traders have recently

shown a lively interest, were again the outstanding features at the dull and

irregular opening, gaining one to two points, while shippings, industrials and

metals sought lower levels. Steel and allied issues yielded fractionally and

rallied to a standstill.

Pressure on industrials and other leaders relaxed after the first half

hour, the market recovering most of the early setback. Oils meanwhile forged

ahead at gains of two to four points and coppers were only slightly affected

by reported sales of the metal at 20 cents. Marines and other shippings be-

came firmer. There was a brisk upward movement in local utilities. By mid-

day several leaders cancelled their advance. Local tractions were relatively

firm, but rails and equipments registered additional losses. Excepting oils,

prices stiffened in the later dealings, equipments and utilities contributing to

the improvement. The closing was irregular.

OPENING—After irregular changes at the

opening, there was a steady tone with moder-

ately higher than declines which had been sus-

tained at the beginning to a few stocks.

Marine preferred opened up 1 point at 100,

but quickly rallied to above 110. Steel com-

mon, after yielding 1/2 to 5/8, rallied to

92 1/2. Distillers continued strong all through

the early trading, advancing 1/2 to 5/8. Some

industrial made good gains, American Cotton

Oil moving up 1/2 point to 42 1/2 and American

Lined made an opening gain of 1/2 to 3/4.

Movement of prices at successive periods of

today's stock market trading is analyzed in

the following quotations of prices of stocks

FORENOON—Markets continued quiet dur-

ing the forenoon, but a firm tone was shown

and nearly all the active issues moved up from

the opening level. United States Steel, after

selling down to 92 1/2, advanced to 94 1/2, and

American Steel moved up two points to 73.

LOSING—The market closed irreg-

ular, with many issues showing a slight

change, railway and other bonds ir-

regular. Interborough preferred rose to

100 1/2, and United States Steel moved up

1/2 point to 94 1/2. Mexican Petroleum sold down to

18 1/2. United States Steel common

closed at 92 1/2, and 42 1/2 and American

Lined made an opening gain of 1/2 to 3/4.

Final prices on Liberty bonds were:

3 1/2, 3 1/2, first convertible 4 1/2, 3 1/2;

3 1/2, 3 1/2, second convertible 4 1/2, 3 1/2;

third 4 1/2, 3 1/2; fourth 4 1/2, 3 1/2.

NEW STEEL SHIP PLAN TO BE CHANGED

With the object of changing the lines of the steel ships to be constructed in the immediate future at Eastbay shipyards, and more particularly to standardize and perfect the model of the 5400-ton steel cargo carriers which are being turned out at the plant of the Moore Shipbuilding and Dock Company at the foot of Adeline street, four officials of the United States Shipping Board and Emergency Fleet Corporation arrived in the San Francisco bay district last evening from Seattle, where they were minutely engaged.

The personnel of the group of shipbuilding experts is made up of R. L. Hague, head of the department of construction and repair of the Shipping Board; I. Prior, assistant manager division of steel ships of the Emergency Fleet Corporation; Dr. H. Sadler, naval architect and consulting engineer for the Emergency Fleet Corporation, and M. C. Brown, head of the performance branch of the Emergency Fleet Corporation. The party was accompanied from the north by Captain J. F. Blain, chief of the Shipping Board at Seattle.

HOLD CONFERENCES.—Today the members of the party are holding conferences with Captain A. F. Pillsbury, manager of the San Francisco bay district of the Shipping Board. Tomorrow they will, it is stated, take up the work of inspection at Eastbay shipyards. Their investigations will extend until Saturday, and will include visits to the Moore, Alameda, plant of the Bethlehem people, Union Construction, and Bay Point shipyards. Saturday evening they will take train for Washington at the Oakland mole of the Southern Pacific Company.

"As all of the shipyards were steel cargo carriers are being built for the United States government in the San Francisco bay district are located on the east side of the bay, the members of the inspection party will pass most of their time at the plants in the Eastbay district," said a prominent official of a local shipbuilding plant in commenting upon the presence here of the government's shipbuilding experts. "We are prepared to afford them every opportunity to view our work," he continued, "and to take advantage of any modifications and simplifications of our present shipbuilding plans they may suggest."

CHANGES CONTEMPLATED.—The principal change contemplated by the experts is, it is stated, designed to cut down the tonnage of about 5 per cent on the admittedly highly successful 5400-ton ship. Twenty-four ships of this class were constructed at the Moore plant during 1918, and ten others are now under way there. At the Alameda plant of the Bethlehem Shipbuilding Corporation ten 12,000-ton freighters are being built, while at the Alameda and Union Construction plants 15,000-ton and 16,000-ton freighters are under construction. At the Bay Point yard four 10,000-ton vessels are on the building ways.

"During the war the main object was to find something that would float and go," said Assistant Manager Prior of the Emergency Fleet Corporation. "Now with peace assured, we must have something that can compete with other ships. We must

Blue Bird Bureau

"Blue eyes or brown?"
"It doesn't matter."
"Black hair or blonde?"
"It doesn't make a bit of difference."

All of which means that some one has applied to Blue Bird for a baby. Blue Bird has helped many to happiness by telling Good Fellows about small children who wanted toys, shoes and clothes at Christmas time, by finding those who would loan wheeled chairs to cripples and even once got a home for a little black kitten—but a baby? This is something entirely new.

In Tehama county there lives a man and his wife who want to give some child a better chance in this world than it would otherwise have. They want for themselves the cheer of a baby's laugh, and the sound of

toddling feet through the rooms. They can live and be generously happy to make life worth while for some baby—if they can find one.

There seems to be an abundance of babies—especially at Christmas time. The letters came in "there are six of us," and many times, "We are eight small children," but this woman from Tehama county wants only one. Blue eyes or brown, light hair or dark, it doesn't matter, she says, but it must be under a year old. Maybe you know of some woman who wants her child to have the opportunity offered by this man and his wife, some mother who cannot possibly give her child the things a little human being should have—good food, out of doors life, education.

The good things that go to make the good citizen. Or maybe there is some tiny mite who has been left fatherless and motherless during the influenza epidemic who will grow up in an orphan home as part of a system, clothed like the rest, playing like the rest and finally, the worst of all, losing the power to think and decide the problems of life as an individual. If you know of such a case will you communicate with the Blue Bird?

No boy babies need apply. The small boy who wanted a coaster because he could do a "good deed" to help his mother, if he had one, is going to get one.

Dies at Outset of His Journey Home
SAN FRANCISCO, Jan. 7.—Julius Liebes, on the eve of his departure for his home in Mexico City, died last night at the Hotel Arizona Apartments, following a sudden attack of the heart. Liebes was 57 years old. He has resided in Mexico for many years, where he has been engaged in mining. Recently he returned from a visit to "papa." He is survived by a widow, Liebes was a brother of the late Herman Liebes, founder of the firm of H. Liebes & Company, fur dealers.

have vessels that will run every day in the year and without excessive cost. So, modifications are being worked out that will bring about this result, so necessary if the United States is to become a great maritime power."

SCHOOLS ARE KEPT CLOSED TO FIGHT FLU

Oakland schools remained closed today, with those of Berkeley and Alameda, under the orders issued last night, suspending all classroom activities indefinitely on account of the recurrence of the spread of influenza.

School officials explained today that the action was taken not so much because of danger in keeping the schools open as because the disease had so reduced teaching and administrative forces that the schools could not be properly conducted, and because parents are keeping their children home, in fear of the epidemic. Ninety-four teachers in the Oakland department are ill, and the absence of students range from 15 to 40 per cent.

Sunday and Monday saw a new jump in influenza cases, 137 new cases being reported for the forty-eight hours with ten deaths. Dr. Daniel Crosby, health officer, has changed his mind regarding the wearing of masks, which he ardently advocated when the epidemic first broke out, but which he now holds to be of little value, following a consultation with other health officers at Sacramento. Crosby prepared a full report on the matter for the city council today.

According to the health department figures there have been 7470 cases of influenza and 105 deaths in Oakland since the outbreak of the epidemic.

So far none of the private schools or business colleges have closed and in an orphan home as part of a system, clothed like the rest, playing like the rest and finally, the worst of all, losing the power to think and decide the problems of life as an individual. If you know of such a case will you communicate with the Blue Bird?

ALAMEDA, Jan. 7.—The revival of the flu epidemic in Alameda resulted in additional cases being reported up to yesterday afternoon for the week-end and Monday. Complete reports for the last 24 hours have not been received, but the increase is not expected to measure up to the week-end figures. The district health officer, Dr. Daniel Crosby, said that the number of cases Saturday and Sunday was not repeated yesterday or this morning.

The decision to close the Alameda schools was reached by Superintendent C. J. DuFour after a careful canvass of the situation in the schools. He revealed that 1300 pupils, equaling 26 per cent of the total normal school attendance, were either absent or kept at home where flu existed or were being kept from school by parents who feared influenza.

There are sixteen Alameda teachers down with influenza. The absence of so many pupils and the illness of the teachers have broken into the regular courses of study so that profitable work could scarcely have been continued had the schools kept open. The evening high school did not hold its usual session last night.

NEW FLARE-UP OF INFLUENZA HITS SAN JOSE

SAN JOSE, Jan. 7.—A new flare-up in the influenza is indicated by reports to the health board within the last couple of days. A total of 71 new cases have developed, a number of pneumonia cases and the death of a child. The health board reported today that the disease had been reported.

The death: John Latorre, 234 North Market street, Fred Krauss, 29th and Santa Clara streets, Catherine Evans, 13-year-old daughter of the Rev. and Mrs. J. J. Evans, 129 North Sixth street. The mother and another daughter in the Evans family are seriously ill with the disease. At the present there are 297 separate homes in San Jose placarded for influenza.

Heads of Spiritual Sect Under Arrest

LOS ANGELES, Jan. 7.—P. H. Keene, head of the Apostolic Spiritual Church, and his associates, Mrs. Jean Lounsbury, director of the same church, are under arrest here today, charged with extorting \$1000 from Samuel Wilson, Santa Ana bean grower. It is alleged Wilson consulted Keene after he found himself in financial difficulties and that Keene caused Wilson to believe Lounsbury to Los Angeles from Erie, Pa., saying she could help him. Following her arrival and meeting with the Wilsons, the conspirators are alleged to have written a series of letters to Wilson threatening him with prosecution unless he made a financial settlement with her.

LEMON JUICE WHITENS SKIN

Girls! Make beauty lotion at home for few cents

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quart of the best bleaching and skin whitening lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how tan, redness, sallowness, sunburn and windburn disappear and how clear, soft and rosy-white the skin becomes. Test! It is harmless.—Advertisement.

Bartlett Water From Bartlett Springs

A natural mineral water (not a manufactured water). Mildly laxative and a kidney purifier. Best for rheumatism and kidney ailments. All wines and liquors. 50 large bottles per case, refund for empties. Free delivery. Adams Bros., distributors, 1464 Alameda street, Oakland. Phone Oakland 4629.—Advertisement.

SCHOOLS, PLACES OF AMUSEMENT, ASSERTS BOYLE

Fred M. Hunter has always been considered as superintendent of schools. But at the meeting of the Board of Education last night School Director Harry Boyle asserted his status as the keeper of an amusement resort.

Boyle, while voting to close the schools on account of the influenza, stated that he did not think it was fair to leave the motion picture houses open. In giving utterance to this sentiment he classified Hunter as "a don't think it is fair to leave the schools," he said "and leave O'THEER places of amusement open." Hunter has not yet been able to swallow the classification.

FIVE MILLION IS WAR WORK LOSS

California will lose approximately \$5,000,000 in cancellations according to Fred Boegle Jr., of this city, who as secretary of the California Manufacturers' Association attended today the result of the meeting, discussing the amount of cancellations. The total number of cases in Oakland is 7531 and 701 deaths, but 44 new cases being reported for the past twenty-four hours and no deaths reported.

The figures for San Francisco for the period between October 5 and December 28 are as follows: Total cases reported 29,000; total deaths 2729. Los Angeles for the same period shows a total of 43,476 cases reported with a total of 2312 deaths for the period. Expressed in rough percentages but 3 per cent of Oakland's population, on a basis of 225,000, were afflicted with the flu.

San Francisco's percentage is approximately 6 per cent while the Los Angeles figures run approximately 9 per cent.

The death rate in the three cities expressed in percentages on the following population basis, 225,000 for Oakland, and 500,000 each for San Francisco and Los Angeles, is as follows:

Oakland, one-third of 1 per cent; San Francisco, one-half of 1 per cent; and Los Angeles, one-half of 1 per cent. In discussing the situation today the health officials say that the one method of combating the influenza is for each individual to take every precaution known to the science of health.

Keep in the open air as much as possible, sleep in well ventilated rooms and wash the ordinary cold is taken at once take prompt measures to check it.

Keep out of crowds or closely packed rooms, in other words, avoid the rules of behavior that are applicable at all times. Members of families afflicted with the flu should wear masks for at least three weeks after the appearance of the disease.

Livermore Epidemic Worse Than Before
LIVERMORE, Jan. 7.—More cases of influenza are reported now than during the first epidemic. Wearing of masks is being enforced and theaters are closed. The Red Cross, with the cooperation of the domestic science department of the Livermore grammar school, is supplying food and necessities to homes where outbreaks of influenza are occurring. Bedding and broom and bedding are sent out daily by the workers. Lists of imperative needs are placed each morning on the school bulletin board and filled as rapidly as possible.

Berkeley Girl is Dead of Influenza
BERKELEY, Jan. 7.—Miss Esther Elizabeth Boden, daughter of Rev. J. O. Boden, well known Turkish minister, died yesterday at Roosevelt hospital in this city of influenza, aged 26 years. She had been suffering for some time to engage in work. Miss Boden was stricken last week with the malady, which caused her death.

Besides her parents she is survived by one sister, Christine Boden. The body has been shipped to Berkeley for funeral services and interment.

Influenza Epidemic Postpones Luncheon

The luncheon which was to have been given by the National League of Teachers' Association, may not take place at the Shattuck Hotel, Berkeley, Saturday, has been indefinitely postponed because of the influenza epidemic.

A Wartime Recipe for Gray Hair

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home: "Merely get a small box of Orle powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Put directions for mixing and use come in each box.

"You need not hesitate to use Orle, as a \$100.00 gold bond comes in each box guaranteeing the user that Orle powder does not contain lead, lead, zinc, sulphur, mercury, antimony, coal-tar products or their derivatives.

"It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray haired man look twenty years younger."—Advertisement.

War Loan Director to Meet Financiers

Governor James K. Lynch of the Federal Reserve Bank has called a conference of Twelfth district government financial representatives to be held in San Francisco January 17, at which time Lewis B. Franklin, director of United States War Loan organizations, will make the principal address.

Among those who will attend are the Liberty Loan state chairman, state directors of War Savings and government state directors of California, Oregon, Washington, Idaho, Utah, Arizona, Nevada, Alaska and Hawaii.
